## **Global Finance Magazine Names Dun & Bradstreet the World's Best Supply Chain Financing and Management Services Provider: 'Best Analytics for Credit Scoring and Supplier Risk Assessment'**

SHORT HILLS, N.J., March 2, 2016 /PRNewswire/ -- Dun & Bradstreet (NYSE: DNB) was [recently recognized](#) for providing the "Best Analytics for Credit Scoring and Supplier Risk Assessment" by Global Finance Magazine.

Global Finance Magazine named Dun & Bradstreet a 2016 global winner for providing analytics-based insight and foresight including credit scoring, country risk assessments, supplier risk assessments and business economics information. In the supply risk space, these reflect solutions that help companies better manage, understand, and take proactive actions against hidden risks that could negatively impact their network of strategic suppliers.

"Dun and Bradstreet is the go-to source of information for suppliers looking to assess and understand events (economic, geopolitical) going on in their market globally that could impact their supply chain," said Joseph Giarraputo, publisher of Global Finance. "The breadth and depth of information they provide enables companies and business decision-makers to quickly get to grips with global events as they unfold and how they could potentially impact their business and network of suppliers."

Nipa Basu, Chief Analytics Officer, Dun & Bradstreet said, "We are honored to be recognized by Global Finance Magazine. The superior analytics found in our solutions are enabled by our data and the ability of our predictive modelers and data scientists to draw insight from that data. Our solutions in the supply management space are flexible and versatile, enabling our customers to have a very clear view of the entire supply chain."

Dun & Bradstreet offers a broad array of [supply management solutions](#) and its data and insights easily enable organizations to become more agile and responsive in both their ethical sourcing practices and customer relationships. These solutions enable companies to have transparency into all levels and aspects of their relationships and those of their suppliers. In particular, its unique Tier N solution - the only one in the market - uses the company's data linkage information to provide companies with a thorough overview of all layers of the supply chain increasing its ability to reduce risk.
