DUN & BRADSTREET REPORTS SECOND QUARTER 2023 FINANCIAL RESULTS

JACKSONVILLE, Fla. - August 3, 2023: Dun & Bradstreet Holdings, Inc. (NYSE: DNB), a leading global provider of business decisioning data and analytics, today announced unaudited financial results for the second quarter ended June 30, 2023. A reconciliation of U.S. generally accepted accounting principles ("GAAP") to non-GAAP financial measures has been provided in this press release, including the accompanying tables. An explanation of these measures is also included below under the heading "Use of Non-GAAP Financial Measures."

- Revenue for the second quarter of 2023 was \$554.7 million, an increase of 3.2% and 3.8% on a constant currency basis compared to the second quarter of 2022.
- Organic revenue increased 3.9% on a constant currency basis compared to the second quarter of 2022.
- GAAP net loss for the second quarter of 2023 was \$19.4 million, or loss per share of \$0.04, compared to net loss of \$1.8 million, or loss per share of less than \$0.01 for the prior year quarter. Adjusted net income was \$95.1 million, or adjusted diluted earnings per share of \$0.22, compared to adjusted net income of \$99.1 million, or adjusted diluted earnings per share of \$0.23 for the prior year quarter.
- Adjusted EBITDA for the second quarter of 2023 was \$206.2 million, an increase of 3.1% compared to the second quarter of 2022, and adjusted EBITDA margin for the second quarter of 2023 was 37.2%.

"We are pleased to deliver another strong quarter of financial results and strategic progress. Organic revenue growth of 3.9% during the second quarter was ahead of our expectations, driven by increased demand in both our North America and International business segments," said Anthony Jabbour, Dun & Bradstreet Chief Executive Officer. "Our second quarter results demonstrate the continued progress we are making in nearly every facet of our organization. We continue to build upon our strength and resiliency both in North America and International through enhancing and expanding our world class, proprietary data sets, solving new use cases for our client base with modernized platforms and solutions and rapidly and responsibly beginning to leverage the latest generative AI tools to accelerate our already rapid pace of innovation. I am very pleased with the progress year to date and we will continue to focus on sustainable growth, innovating with urgency and allocating our capital and resources in an efficient and effective manner to continue on our multi-year journey of increased organic growth, enhanced profitability and a strengthened balance sheet."

- Revenue for the six months ended June 30, 2023 was \$1,095.1 million, an increase of 2.0% and 3.3% on a constant currency basis compared to the six months ended June 30, 2022.
- Organic revenue increased 3.5% on a constant currency basis compared to the six months ended June 30, 2022.
- GAAP net loss for the six months ended June 30, 2023 was \$53.1 million, or loss per share of \$0.12, compared to net loss of \$33.1 million, or loss per share of \$0.08 for the prior year period. Adjusted net income was \$175.6 million, or adjusted diluted earnings per share of \$0.41, compared to adjusted net income of \$193.2 million, or adjusted diluted earnings per share of \$0.45 for the prior year period.
- Adjusted EBITDA for the six months ended June 30, 2023 was \$396.2 million, an increase of 1.6% compared to the six months ended June 30, 2022, and adjusted EBITDA margin for the six months ended June 30, 2023 was 36.2%.

Business Outlook

- Revenues after the impact of foreign exchange are expected to be in the range of \$2,280 million to \$2,320 million, or ~2.5% to 4.3%.
- Organic revenue growth is expected to be in the range of 3.0% to 4.5%.
- Adjusted EBITDA is expected to be in the range of \$875 million to \$915 million.
- Adjusted EPS is expected to be in the range of \$0.92 to \$1.01.

The foregoing forward-looking statements reflect Dun & Bradstreet’s expectations as of today’s date and Revenue assumes constant foreign currency rates. Dun & Bradstreet does not present a qualitative reconciliation of its forward-looking non-GAAP financial measures to the most directly comparable GAAP measure due to the inherent difficulty, without unreasonable efforts, in forecasting and quantifying with reasonable accuracy significant items required for this reconciliation. Given the number of risk factors, uncertainties and assumptions discussed below, actual results may differ materially. Dun & Bradstreet does not intend to update its forward-looking statements until its next quarterly results announcement, other than in publicly available statements.

Use of Non-GAAP Financial Measures

In addition to reporting GAAP results, we evaluate performance and report our results on the non-GAAP financial measures discussed below. We believe that the presentation of these non-GAAP measures provides useful information to investors and rating agencies regarding our results, operating trends and performance between periods. These non-GAAP financial measures include organic revenue, adjusted earnings before interest, taxes, depreciation and amortization (“adjusted EBITDA”), adjusted EBITDA margin, adjusted net income and adjusted net earnings per diluted share. Adjusted results are non-GAAP measures that adjust for the impact due to certain acquisition and divestiture related revenue and expenses, such as costs for banker fees, legal fees, due diligence, retention payments and contingent consideration adjustments, restructuring charges, equity-based compensation, and other non-core gains and charges that are not in the normal course of our business, such as costs associated with early debt redemptions, gains and losses on sales of businesses, impairment charges, the effect of significant changes in tax laws and material tax and legal settlements. We exclude amortization of recognized intangible assets resulting from the application of purchase accounting because it is non-cash and not indicative of our ongoing and underlying operating performance. Recognized intangible assets arise from acquisitions, primarily the Take-Private Transaction. We believe that recognized intangible assets by their nature are fundamentally different from other depreciating assets that are replaced on a predictable operating cycle. Unlike other depreciating assets, such as developed and purchased software licenses or property and equipment, there is no replacement cost once these recognized intangible assets expire and the assets are not replaced. Additionally, our costs to operate, maintain and extend the life of acquired intangible assets and purchased intellectual property are reflected in our operating costs as personnel, data fee, facilities, overhead and similar items. Management believes it is important for investors to understand that such intangible assets were recorded as part of purchase accounting and contribute to revenue generation. Amortization of recognized intangible assets will recur in future periods until such assets have been fully amortized. In addition, we isolate the effects of changes in foreign exchange rates on our revenue growth because we believe it is useful for investors to be able to compare revenue from one period to another, both after and before the effects of foreign exchange rate changes. The change in revenue performance attributable to foreign currency rates is determined by converting both our prior and current periods’ foreign currency revenue by a constant rate. As a result, we monitor our revenue growth both after and before the effects of foreign exchange rate changes. We believe that these supplemental non-GAAP financial measures provide management and other users with additional meaningful financial information that should be considered when assessing our ongoing performance and comparability of our operating results from period to period. Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions. These non-GAAP measures are among the factors management uses in planning for and forecasting future periods. Non-GAAP financial measures should be viewed in addition to, and not as an alternative to our reported results prepared in accordance with GAAP.

Our non-GAAP or adjusted financial measures reflect adjustments based on the following items, as well as the related income tax.

Organic Revenue

We define organic revenue as reported revenue before the effect of foreign exchange excluding revenue from acquired businesses, if applicable, for the first twelve months. In addition, organic revenue excludes current and prior year revenue associated with divested businesses, if applicable. We believe the organic measure provides investors and analysts with useful supplemental information regarding the Company’s underlying revenue trends by excluding the impact of acquisitions and divestitures. Revenue from divested businesses is related to the business-to-consumer business in Germany that was sold during the second quarter of 2022.

Adjusted EBITDA and Adjusted EBITDA Margin

We define adjusted EBITDA as net income (loss) attributable to Dun & Bradstreet Holdings, Inc. excluding the following items:

- depreciation and amortization;

- interest expense and income;
- income tax benefit or provision;
- other non-operating expenses or income;
- equity in net income of affiliates;
- net income attributable to non-controlling interests;
- equity-based compensation;
- restructuring charges;
- merger, acquisition and divestiture-related operating costs;
- transition costs primarily consisting of non-recurring expenses associated with transformational and integration activities, as well as incentive expenses associated with our synergy program; and
- other adjustments primarily related to non-cash charges and gains, including impairment charges and adjustments as the result of the application of purchase accounting mainly in 2022 related to the deferred commission cost amortization associated with the Take-Private Transaction. In addition, other adjustments also include non-recurring charges such as legal expense associated with significant legal and regulatory matters.

We calculate adjusted EBITDA margin by dividing adjusted EBITDA by revenue.

Adjusted Net Income

We define adjusted net income as net income (loss) attributable to Dun & Bradstreet Holdings, Inc. adjusted for the following items:

- incremental amortization resulting from the application of purchase accounting. We exclude amortization of recognized intangible assets resulting from the application of purchase accounting because it is non-cash and is not indicative of our ongoing and underlying operating performance. The Company believes that recognized intangible assets by their nature are fundamentally different from other depreciating assets that are replaced on a predictable operating cycle. Unlike other depreciating assets, such as developed and purchased software licenses or property and equipment, there is no replacement cost once these recognized intangible assets expire and the assets are not replaced. Additionally, the Company's costs to operate, maintain and extend the life of acquired intangible assets and purchased intellectual property are reflected in the Company's operating costs as personnel, data fee, facilities, overhead and similar items;
- equity-based compensation;
- restructuring charges;
- merger, acquisition and divestiture-related operating costs;
- transition costs primarily consisting of non-recurring expenses associated with transformational and integration activities, as well as incentive expenses associated with our synergy program;
- merger, acquisition and divestiture-related non-operating costs;

- debt refinancing and extinguishment costs;
- non-operating pension-related income (expenses) includes certain costs and income associated with our pension and postretirement plans, consisting of interest cost, expected return on plan assets and amortized actuarial gains or losses, prior service credits and if applicable, plan settlement charges. These adjustments are non-cash and market-driven, primarily due to the changes in the value of pension plan assets and liabilities which are tied to financial market performance and conditions;
- other adjustments primarily related to non-cash charges and gains, including impairment charges and adjustments as the result of the application of purchase accounting mainly related to the deferred commission cost amortization associated with the Take-Private Transaction. In addition, other adjustments also include non-recurring charges such as legal expense associated with significant legal and regulatory matters;
- tax effect of the non-GAAP adjustments; and
- other tax effect adjustments related to the tax impact of statutory tax rate changes on deferred taxes and other discrete items.

Adjusted Net Earnings Per Diluted Share

We calculate adjusted net earnings per diluted share by dividing adjusted net income (loss) by the weighted average number of common shares outstanding for the period plus the dilutive effect of common shares potentially issuable in connection with awards outstanding under our stock incentive plan.

Forward-Looking Statements

The statements contained in this release that are not purely historical are forward-looking statements, including statements regarding expectations, hopes, intentions or strategies regarding the future. Forward-looking statements are based on Dun & Bradstreet's management's beliefs, as well as assumptions made by, and information currently available to, them. Forward-looking statements can be identified by words such as "anticipates," "intends," "plans," "seeks," "believes," "estimates," "expects" and similar references to future periods, or by the inclusion of forecasts or projections. Examples of forward-looking statements include, but are not limited to, statements we make regarding the outlook for our future business and financial performance. Because such statements are based on expectations as to future financial and operating results and are not statements of fact, actual results may differ materially from those projected. It is not possible to predict or identify all risk factors. Consequently, the risks and uncertainties listed below should not be considered a complete discussion of all of our potential trends, risks and uncertainties. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

The risks and uncertainties that forward-looking statements are subject to include, but are not limited to: (i) our ability to implement and execute our strategic plans to transform the business; (ii) our ability to develop or sell solutions in a timely manner or maintain client relationships; (iii) competition for our solutions; (iv) harm to our brand and reputation; (v) unfavorable global economic conditions including, but not limited to, volatility in interest rates, foreign currency markets, inflation, and supply chain disruptions; (vi) risks associated with operating and expanding internationally; (vii) failure to prevent cybersecurity incidents or the perception that confidential information is not secure; (viii) failure in the integrity of our data or systems; (ix) system failures and personnel disruptions, which could delay the delivery of our solutions to our clients; (x) loss of access to data sources or ability to transfer data across the data sources in markets where we operate; (xi) failure of our software vendors and network and cloud providers to perform as expected or if our relationship is terminated; (xii) loss or diminution of one or more of our key clients, business partners or government contracts; (xiii) dependence on strategic alliances, joint ventures and acquisitions to grow our business; (xiv) our ability to protect our intellectual property adequately or cost-effectively; (xv) claims for intellectual property infringement; (xvi) interruptions, delays or outages to subscription or payment processing platforms; (xvii) risks related to acquiring and integrating businesses and divestitures of existing businesses; (xviii) our ability to retain members of the senior leadership team and attract and retain skilled employees; (xix) compliance with governmental laws and regulations; (xx) risks related to registration and other rights held by certain of our largest shareholders; (xxi) an outbreak of disease, global or localized health

pandemic or epidemic, or the fear of such an event (such as the COVID-19 global pandemic), including the global economic uncertainty and measures taken in response; (xxii) the short- and long-term effects of the COVID-19 global pandemic, including the pace of recovery or any future resurgence; (xxiii) increased economic uncertainty related to the ongoing conflict between Russia and Ukraine and associated trends in macroeconomic conditions, and (xxiv) the other factors described under the headings “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” “Cautionary Note Regarding Forward-Looking Statements” and other sections of our Annual Report on Form 10-K filed with the Securities and Exchange Commission (“SEC”) on February 23, 2023.

Second Quarter 2023 Financial Results

August 3, 2023

Disclaimer

This presentation contains statements that are not purely historical but are forward-looking statements, including statements regarding expectations, hopes, intentions or strategies regarding the future. Forward-looking statements are based on Dun & Bradstreet's management's beliefs, as well as assumptions made by, and information currently available to, them. Forward-looking statements can be identified by words such as "anticipates," "intends," "plans," "seeks," "believes," "estimates," "expects" and similar references to future periods, or by the inclusion of forecasts or projections. Examples of forward-looking statements include, but are not limited to, statements we make regarding the outlook for our future business and financial performance. Because such statements are based on expectations as to future financial and operating results and are not statements of fact, actual results may differ materially from those projected. It is not possible to predict or identify all risk factors. Consequently, the risks and uncertainties listed below should not be considered a complete discussion of all of our potential trends, risks and uncertainties. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

You are cautioned not to place undue reliance on the utility of the information in this Presentation as a predictor of future performance. Any estimates and statements contained herein may be forward-looking in nature and involve significant elements of subjective judgment and analysis, which may or may not be correct. Risks, uncertainties and other factors may cause actual results to vary materially and potentially adversely from those anticipated, estimated or projected. For example, throughout this Presentation we discuss the Company's business strategy and certain short and long term financial and operational expectations that we believe would be achieved based upon our planned business strategy for the next several years. These expectations can only be achieved if the assumptions underlying our business strategy are fully realized -some of which we cannot control (e.g., market growth rates, macroeconomic conditions and customer preferences) and we will review these assumptions as part of our annual planning process.

The risks and uncertainties that forward-looking statements are subject to include, but are not limited to: (i) our ability to implement and execute our strategic plans to transform the business; (ii) our ability to develop or sell solutions in a timely manner or maintain client relationships; (iii) competition for our solutions; (iv) harm to our brand and reputation; (v) unfavorable global economic conditions including, but not limited to, volatility in interest rates, foreign currency markets, inflation and supply chain disruptions; (vi) risks associated with operating and expanding internationally; (vii) failure to prevent cybersecurity incidents or the perception that confidential information is not secure; (viii) failure in the integrity of our data or systems; (ix) system failures and personnel disruptions, which could delay the delivery of our solutions to our clients; (x) loss of access to data sources or ability to transfer data across the data sources in markets where we operate; (xi) failure of our software vendors and network and cloud providers to perform as expected or if our relationship is terminated; (xii) loss or diminution of one or more of our key clients, business partners or government contracts; (xiii) dependence on strategic alliances, joint ventures and acquisitions to grow our business; (xiv) our ability to protect our intellectual property adequately or cost-effectively; (xv) claims for intellectual property infringement; (xvi) interruptions, delays or outages to subscription or payment processing platforms; (xvii) risks related to acquiring and integrating businesses and divestitures of existing businesses; (xviii) our ability to retain members of the senior leadership team and attract and retain skilled employees; (xix) compliance with governmental laws and regulations; (xx) risks related to registration and other rights held by certain of our largest shareholders; (xxi) an outbreak of disease, global or localized health pandemic or epidemic, or the fear of such an event (such as the COVID-19 global pandemic), including the global economic uncertainty and measures taken in response; (xxii) the short- and long-term effects of the COVID-19 global pandemic, including the pace of recovery or any future resurgence; (xxiii) increased economic uncertainty related to the ongoing conflict between Russia and Ukraine and associated trends in macroeconomic conditions, and (xxiv) the other factors described under the headings "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in our consolidated financial statements for the year ended December 31, 2022, included in our Annual Report of Form 10-K filed with the Securities and Exchange Commission ("SEC") on February 23, 2023, our other Quarterly Reports and the Company's other reports or documents filed with the SEC.

All information herein speaks only as of (1) the date hereof, in the case of information about the Company, and (2) the date of such information, in the case of information from persons other than the Company. There can be no assurance any forecasts and estimates will prove accurate in whole or in part. The Company does not undertake any duty to update or revise the information contained herein, publicly or otherwise.

The Presentation also includes certain financial information that is not presented in accordance with Generally Accepted Accounting Principles ("GAAP"), including, but not limited to, Organic Revenue, EBITDA, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Net Income, and certain ratios and other metrics derived therefrom. These non-GAAP financial measures are not measures of financial performance in accordance with GAAP and may exclude items that are significant in understanding and assessing the Company's financial results. Further, it is important to note that non-GAAP financial measures should not be considered in isolation and may be considered in addition to GAAP financial information but should not be used as substitutes for the corresponding GAAP measures. It is also important to note that EBITDA, Adjusted EBITDA for specified fiscal periods have been calculated in accordance with the definitions thereof as set out in our public disclosures and are not projections of anticipated results but rather reflect permitted adjustments. Additionally, this Presentation contains forward-looking financial measures presented on a non-GAAP basis without reconciliation to the most directly comparable GAAP measure due to the inherent difficulty, without unreasonable efforts, in forecasting and quantifying with reasonable accuracy significant items required for this reconciliation. You should be aware that Dun & Bradstreet's presentation of these and other non-GAAP financial measures in this Presentation may not be comparable to similarly-titled measures used by other companies.

Non-GAAP Financial Measures

In addition to reporting GAAP results, we evaluate performance and report our results on the non-GAAP financial measures discussed below. We believe that the presentation of these non-GAAP measures provides useful information to investors and rating agencies regarding our results, operating trends and performance between periods. These non-GAAP financial measures include organic revenue, adjusted earnings before interest, taxes, depreciation and amortization ("adjusted EBITDA"), adjusted EBITDA margin, adjusted net income and adjusted net earnings per diluted share. Adjusted results are non-GAAP measures that adjust for the impact due to certain acquisition and divestiture related revenue and expenses, such as costs for banker fees, legal fees, due diligence, retention payments and contingent consideration adjustments, restructuring charges, equity-based compensation, and other non-core gains and charges that are not in the normal course of our business, such as costs associated with early debt redemptions, gains and losses on sales of businesses, impairment charges, the effect of significant changes in tax laws and material tax and legal settlements. We exclude amortization of recognized intangible assets resulting from the application of purchase accounting because it is non-cash and not indicative of our ongoing and underlying operating performance. Recognized intangible assets arise from acquisitions, primarily the Take-Private Transaction. We believe that recognized intangible assets by their nature are fundamentally different from other depreciating assets that are replaced on a predictable operating cycle. Unlike other depreciating assets, such as developed and purchased software licenses or property and equipment, there is no replacement cost once these recognized intangible assets expire and the assets are not replaced. Additionally, our costs to operate, maintain and extend the life of acquired intangible assets and purchased intellectual property are reflected in our operating costs as personnel, data fee, facilities, overhead and similar items. Management believes it is important for investors to understand that such intangible assets were recorded as part of purchase accounting and contribute to revenue generation. Amortization of recognized intangible assets will recur in future periods until such assets have been fully amortized. In addition, we isolate the effects of changes in foreign exchange rates on our revenue growth because we believe it is useful for investors to be able to compare revenue from one period to another, both after and before the effects of foreign exchange rate changes. The change in revenue performance attributable to foreign currency rates is determined by converting both our prior and current periods' foreign currency revenue by a constant rate. As a result, we monitor our adjusted revenue growth both after and before the effects of foreign exchange rate changes. We believe that these supplemental non-GAAP financial measures provide management and other users with additional meaningful financial information that should be considered when assessing our ongoing performance and comparability of our operating results from period to period. Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions. These non-GAAP measures are among the factors management uses in planning for and forecasting future periods. Non-GAAP financial measures should be viewed in addition to, and not as an alternative to our reported results prepared in accordance with GAAP.

Our non-GAAP or adjusted financial measures reflect adjustments based on the following items, as well as the related income tax.

Organic Revenue

We define organic revenue as reported revenue before the effect of foreign exchange excluding revenue from acquired businesses, if applicable, for the first twelve months. In addition, organic revenue excludes current and prior year revenue associated with divested businesses, if applicable. We believe the organic measure provides investors and analysts with useful supplemental information regarding the Company's underlying revenue trends by excluding the impact of acquisitions and divestitures. Revenue from divested businesses is related to the business-to-consumer business in Germany that was sold during the second quarter of 2022.

Adjusted EBITDA and Adjusted EBITDA Margin

We define adjusted EBITDA as net income (loss) attributable to Dun & Bradstreet Holdings, Inc. excluding the following items:

- depreciation and amortization;
- interest expense and income;
- income tax benefit or provision;
- other non-operating expenses or income;
- equity in net income of affiliates;
- net income attributable to non-controlling interests;
- equity-based compensation;
- restructuring charges;
- merger, acquisition and divestiture-related operating costs;
- transition costs primarily consisting of non-recurring expenses associated with transformational and integration activities, as well as incentive expenses associated with our synergy program; and
- other adjustments primarily related to non-cash charges and gains, including impairment charges and adjustments as the result of the application of purchase accounting mainly related to the deferred commission cost amortization associated with the Take-Private Transaction and revenue adjustment associated with the Bisnode acquisition. In addition, other adjustments also include non-recurring charges such as legal expense associated with significant legal and regulatory matters.

We calculate adjusted EBITDA margin by dividing adjusted EBITDA by revenue.

Non-GAAP Financial Measures (Continued)

Adjusted Net Income

We define adjusted net income as net income (loss) attributable to Dun & Bradstreet Holdings, Inc. adjusted for the following items:

- incremental amortization resulting from the application of purchase accounting. We exclude amortization of recognized intangible assets resulting from the application of purchase accounting because it is non-cash and is not indicative of our ongoing and underlying operating performance. The Company believes that recognized intangible assets by their nature are fundamentally different from other depreciating assets that are replaced on a predictable operating cycle. Unlike other depreciating assets, such as developed and purchased software licenses or property and equipment, there is no replacement cost once these recognized intangible assets expire and the assets are not replaced. Additionally, the Company's costs to operate, maintain and extend the life of acquired intangible assets and purchased intellectual property are reflected in the Company's operating costs as personnel, data fee, facilities, overhead and similar items;
- equity-based compensation;
- restructuring charges;
- merger, acquisition and divestiture-related operating costs;
- transition costs primarily consisting of non-recurring expenses associated with transformational and integration activities, as well as incentive expenses associated with our synergy program;
- merger, acquisition and divestiture-related non-operating costs;
- debt refinancing and extinguishment costs;
- non-operating pension-related income (expenses) includes certain costs and income associated with our pension and postretirement plans, consisting of interest cost, expected return on plan assets and amortized actuarial gains or losses and prior service credits. These adjustments are non-cash and market-driven, primarily due to the changes in the value of pension plan assets and liabilities which are tied to financial market performance and conditions. Non-operating pension-related income (expenses) also includes plan settlement charges;
- other adjustments primarily related to non-cash charges and gains, including impairment charges and adjustments as the result of the application of purchase accounting mainly in 2022 related to the deferred commission cost amortization associated with the Take-Private. In addition, other adjustments also include non-recurring charges such as legal expense associated with significant legal and regulatory matters.
- tax effect of the non-GAAP adjustments; and
- other tax effect adjustments related to the tax impact of statutory tax rate changes on deferred taxes and other discrete items.

Adjusted Net Earnings Per Diluted Share

We calculate adjusted net earnings per diluted share by dividing adjusted net income (loss) by the weighted average number of common shares outstanding for the period plus the dilutive effect of common shares potentially issuable in connection with awards outstanding under our stock incentive plan.
